GrooveToons

Speaker & alarm clock system for iPod nano

BACK TO SCHOOL ★ 08

FOR WHOM THE (SCHOOL) BELL TOLLS

These smart products can mean only one thing—class is back in session!

by **Jonna Gallo Wepler**

In the wish-we'd-thought-of-this category here's a **mouse pad** that's actually a pad—as in, made of paper for jotting. Love the **Random Dawdle** version and the **Daily Mood Tracker** too. \$11, knockknock.biz.

Sound the alarm for **Cygnett's Groove Toons clock**—it works with any generation iPod nano. The speakers pack a punch for the price and will help get a dawdler out of bed. \$50, cygnett.com.
