

“The sound of the Unison X5 iPod music system is amazing. I blast the music so loud my parents, who are downstairs, keep telling me to turn it down” — Madison

15 iPod speakers and alarm clock
Price: \$69.95

FEW iPod accessories are as cute and as easy to use as Cygnett’s GrooveToons. It features a safe dock for iPod’s Nano, built-in speakers and amplifier, an alarm clock and adjustable volume.

“Along with my Nano this is my favourite appliance. I do love a sleep-in but waking up to my favourite songs doesn’t make it so bad. All I had to do to set it up was follow three instructions. It is cute, pink and girly” — Ella

16 iPod sound system
Model: Unison iX5
Price: \$399.95
Cygnett: 9429 2552, www.cygnett.com.au

CYGNETT’s Unison iX5 consists of an iPod dock, two self-powered speakers and a remote control. The secret to its great sound is inside the speakers where two 35-watt amplifiers (one a speaker) send power directly to the drivers, minimising signal loss that would otherwise happen using a couple of runs of speaker cables.

“The quality and volume of sound is incredible. Being able to connect it to my iPod is brilliant. The speakers are big, beautiful and black and are the feature of my bedroom. My parents have given up asking me to turn down the volume because they like the way it sounds on the Unison.” — Madison
