ABOUT ME | MUSICMAN

### Unison i-X5 Dock and Speakers

The Cygnett Unison i-X5 Dock and Speaker competitor to the popular Fatman system. Finished in a quality piano black they emit a professional recording studio feel. The system comes complete with a useful remote control and the amplifier stage is built into the speakers saving space and improving quality. The i-X5 speakers are very strong in the mid range with the subtlety of artists such as Katie Melua, Norah Jones and Diana Krall nicely revealed. For a small speaker they pack a remarkable 70w punch, certainly big and loud enough for my living room with a fully rounded rendition of Faithless' Insomnia. The system shows off its Hi Fi credentials with an additional two inputs allowing connection to CD player or games console for example. Tested with a PS3 the sound easily complemented a 43" Pioneer HD display. All in all, a worthwhile investment in a very competitive sector.

## Unison i-X5 Dock and Speakers

The Cygnett Unison i-X5 Dock and Speaker system is a capable competitor to the popular Fatman system. Finished in a quality piano black they emit a professional recording studio feel. The system comes complete with a useful remote control and the amplifier stage is built into the speakers saving space and improving quality. The i-X5 speakers are very strong in the mid range with the subtlety of artists such as Katie Melua, Norah Jones and Diana Krall nicely revealed. For a small speaker they pack a remarkable 70w punch, certainly big and loud enough for my living room with a fully rounded rendition of Faithless' Insomnia. The system shows off its Hi Fi credentials with an additional two inputs allowing connection to CD player or games console for example. Tested with a PS3 the sound easily complemented a 43" Pioneer HD display. All in all, a worthwhile investment in a very competitive sector.
