Groovetons Alarm Clocks for the iPod Nano

Posted on August 24th, 2007 by Rachael

Wake up to the sound of your iPod with the Groovetons alarm clock.

The alarm clocks look like little cartoon bugs with googly eyes and little legs. The clocks come in colors of the Nano showcasing matching green, pink, blue, black and silver.

The alarms dock the iPod, charges the iPod, has speakers in the back for listening, and comes complete with a snooze button.

Once your iPod is docked the alarm and time will automatically show up on your Nano.

It is compatible with the 1st and 2nd generation iPod nano and retails for \$60.00.
