Cygnett Groovetoons iPod Alarm Clock ships

Easyishop.co.uk has begun selling the Cygnett Groovetoons iPod Alarm Clock, a line of bedside alarms colored to match the various second-generation iPod nano models. The clock displays the current time, charges the Nano on a constant basis when docked, and features a snooze button with adjustable volume. Time is displayed via the backlit LCD screen of the iPod nano, which makes it viewable during the day or at night in the dark. The Cygnett Groovetoons iPod Alarm Clock ships in five different colors to match Apple's newest iPod nanos, and works with first-generation iPod nanos as well. The alarm clock is priced at \$65.
