

PR for Unison i-X5 Speaker System

The City Weekly
31st May, 2007

5 THINGS

World Environment Day is on June 5. Here are five simple things you can do to help the planet.

1. Cycle, walk or take public transport to work.
2. Switch off your appliances when they're not in use. Turning appliances off at the wall could reduce your home's greenhouse gas emissions by up to 700 kilograms a year.
3. Replace standard light globes with energy-efficient globes.
4. Replace your old showerhead with a water saving alternative.
5. Switch your home to Green energy via Origin's GreenEarth product. Call 13 GREEN.

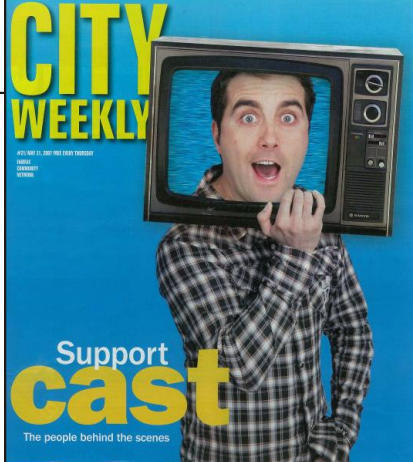

Targeting style

Taking the next step in their commitment to local, young designers, Target has joined forces with one of Australia's most exciting emerging designers, Josh Goot. The Josh Goot for Target collection, priced between \$59.99 and \$129.99, will be available in selected Target stores on June 19. Details: www.designersfortarget.com.au

Power to the iPod

If you're searching for a set of speakers for your iPod that don't sound thin, check out the new Unison i-X5 iPod Speaker System. It transforms your iPod into a complete home stereo system – you can listen to music, view movies, music videos and digital images on your TV screen or computer while it conveniently charges and syncs your iPod. It will set you back \$399.95. Stockists: 9429 2552.
